"Insightful, moving and incredibly powerful, Playback Theatre sessions have a remarkable impact upon our participants."

*Kylie Gillman
Manager, Open Enrolment Programs
Executive Education
Melbourne Business School*

**TRAINING PROGRAMS
CONFERENCES
SPECIAL EVENTS**

Melbourne Playback Theatre Company has over 25 years experience performing for the corporate, government and community sectors. We perform for conferences, training programs, educational institutions and community events.

WE BRING YOUR STORIES TO LIFE

A performance is facilitated by a conductor, who provides the opportunity for the audience to share opinions, reflections and experiences. Highly skilled performers then transform these stories into potent theatre. A Playback performance is powerful, poignant, evocative, revealing, delightful and humorous.

WE COME TO YOU

We address your themes.
We meet your brief.
We can help you awaken new ideas, forge a shared vision, transform stagnant culture, and celebrate success.

Corporate Training Programs and Conferences

Our performances are an insightful and playful addition to training programs, conferences and events. Playback provides:

- A forum for participants to reflect upon their experiences
- The opportunity to explore themes and objectives
- Modelling for teamwork, trust and creativity
- An ice-breaker for the beginning of an event
- The drawing together of themes at its conclusion

Educational Institutions

Melbourne Playback performs for a variety of Schools and Universities throughout Victoria.

Our performances can serve to:

- Celebrate milestones
- Explore issues such as bullying, transition and stress management
- Create a forum for students to reflect on their experiences
- Model team-work, creativity and theatre skills

Community

Playback Theatre creates a bridge which makes one person's experience accessible to others. In this way we assist in the development of communities.

Often in our performances the person who rarely speaks will share a story, or the emerging theme of a performance dramatically opens the eyes of the community to what lives at its heart.

Workshops

We also offer workshops and training designed to meet a variety of objectives.

These include:

- Team Building
- Performance, Improvisation and Acting Skills
- Storytelling
- Empowerment
- Listening and Empathy Skills

"I was moved to tears by the Playback session this morning, having forgotten how exciting education can be when handled with creativity and dynamism, and coaxing the real information straight from the students."

Anna Epstein
The Jewish Museum

"Playback Theatre has helped CUB on a number of occasions ... there is a common thread to the magic of their work - the ability to understand what is not said, and then reflect those inner thoughts and emotions back to the group in a positive and uplifting way. The ability of the team to engage and inspire, and the positive impact this has on others in the organisation is the major reason why we see Playback Theatre as a key part of our development, now and in the future."

Steve Arthurson
General Manager, Human Resources
Carlton & United Breweries
